A .22 caliber starting pistol may be used. If all equipment is deemed useless, the Referee shall determine an alternative starting signal which must remain consistent for the remainder of the meet- or until starting system is operable.
- .2 **Preparation** — The Starter shall stand within ten feet of the starting end of the pool and upon signal from Referee, shall assume control of swimmers until a fair start has been achieved.
- .3 **Optional Instructions** — The Starter may:
 - A. Announce the event;
 - B. Advise the heat when a swimmer will be attempting to achieve a time at an initial distance.
 - C. For backstroke event starts, give the command, "Place your feet."

.4 The Start

A. At the commencement of each heat, the Announcer/Starter shall signal to the swimmers to remove all clothing except for swimwear, followed by a command for swimmers to take and maintain their positions on the starting platform. In backstroke and medley relay events, at the Announcer/Starter directs swimmers to immediately enter the water and return, without undue delay, to the starting position.

Swimmers remaining on the starting blocks shall be relieved from their starting positions with the "Stand up" command and may step off the blocks. The Starter shall restart the race upon signal by the Referee. The recall signal shall be activated if the starter sees movement prior to the start, but before the release command is given, and after the starting signal has been given.

B. If the starting signal has been given before the disqualification is declared, the race shall continue without recall. If the Referee independently observes and confirms the starter's observation that a violation occurred, the swimmer or swimmers who have false started shall be notified of the disqualification upon completion of the race.

C. If the recall signal is activated inadvertently, no swimmer shall be charged with a false start and the Starter shall restart the race upon signal by the Referee.

.6 Deliberate Delay or Misconduct

.1 Timing Systems — Every race in a swimming competition shall be timed with the following system:

A. **Manual** — A timing system consisting of individual lane timers, each operating a manual watch that is both started and stopped by the timer as described in Section 102.16.3C. Only hand-held, battery powered, digital read-out type watches designed for timing purposes shall be used.

.2 Timing System Designation — Timing systems shall be designated as follows:

A. **Primary System** — The primary system shall determine the official time of each swimmer unless a comparison of the primary with secondary and/or tertiary system times indicates a malfunction of the primary system. A primary system shall always be in place and shall consist of:

(1) Manual, with three (3) or two (2) watches per lane, each operated by a separate timer.

.3 Timing Personnel and Their Duties —

A. **Head Timer/Backup Timer (Home Team)** — The Head/Backup Timer shall:

(1) Assure the assignment of Lane Timers to lanes and the designation of one timer on each lane to be the Head Lane Timer.

(2) On the starting signal, start a watch(es) on every race. The time of this watch shall be used if a Lane Timer's watch fails.

(3) Be responsible for the Runners insuring all manual watch times, including those of disqualified swimmers, get to the Recorder/Scorer.

B. Head Lane Timer — The Head Lane Timer shall:

- (1) Determine whether the swimmer or relay team is present and in the correct lane, heat and event, and that relay swimmers are swimming in the order listed.
- (2) Determine and record manual watch times or the absence of a swimmer or the relay team seeded in that lane.
- (3) Assign one timer to time relay splits and initial distance times if requested by the Chief Timer.
- (4) Report if the swimmer has delayed in touching or has missed the touch pad at the finish, or if there is reason to believe the semi-automatic or manual times may be inaccurate.

C. Other Lane Timers — Officials assigned as Lane Timers may simultaneously operate two dissimilar devices (one watch and one button) but not two similar devices (two watches or two buttons). It is not within the Lane Timer's jurisdiction to judge if the swimmer's touch conforms to the applicable finish rules or if a relay take-off infraction has occurred unless assigned concurrent responsibility as a Lane Timer and Turn Judge or Relay Take-off Judge. Each timer shall:

- (1) Be in position at the start to have an unobstructed view and shall start the watch at the instant of observing the visual starting signal. If the visual starting signal is not observed, the watch shall be started upon hearing the sound of the starting signal.
- (2) Stand directly over the assigned lane at the finish to observe a touch above, at, or below the surface of the water and stop the watch and/or push the semi-automatic system button when any part of the swimmer's body touches the wall.
- (3) Report the watch time to the Head Lane Timer or the designated recorder, report if a late or missed pad touch is observed; and, if requested, present the watch for inspection. Lane Timers shall not clear their watches until a command to "clear watches" is given or the Referee signals that the next heat is ready to start.

D. Recorder/Scorer (Computer Persons) — The Recorder shall:

- (1) Record the Official Times and disqualifications;
- (2) Determine the official Order of Finish;
- (3) Publish the results; and
- (4) May also determine the score of the meet.

.4 Requirements for Official Time

A. Performance Requirements

(1) An official time can be achieved only in Sierra Foothill Swim League approved competition, or in an observed swim in accordance with all applicable rules.

It may be achieved in:

- (a) A preliminary or final heat.
- (b) A swim-off held to determine qualifiers or alternates for consolation or final heats.
- (c) A lead-off leg in a relay.
- (d) A split time recorded from the official start to the completion of an initial distance with a legal finish within a longer event, provided the swimmer completes the event or the lead-off portion of the relay in compliance with applicable rules.
- (e) A time trial or a record attempt.

(2) An official time for an event or a stroke can be achieved only in that event or stroke, or in an initial distance of such event or stroke (e.g. a backstroke time must be achieved in a backstroke event or the backstroke leg of a medley relay). Regardless of the stroke(s) used, times achieved in freestyle events can be recorded only as freestyle times.

B. Timing Resolution — All timing systems, including manual watches, shall have a resolution of one one-hundredth of a second (0.01 second). Times from all systems shall be recorded to hundredths of a second. The digits representing thousandths shall be dropped with no rounding.

C. Backup Timing System Requirement — Except when the primary system consists of watches, backup timing shall be provided for all competitors. No swimmer shall be required to re-swim a race due to equipment failure which results in unrecorded or inaccurate time or place. It is the meet director's responsibility to provide the proper timing systems so that swimmers can expect to achieve official times that will satisfy the requirements of Section 102.16.4C.

.5 Determination of Official Time

A. Semi-Automatic and Manual Timing — Whenever semi-automatic or manual timing is used, the times shall be determined as follows:

- (1) If **two** of the three button or watch times agree, that shall be the time for that timing system.
- (2) If all three buttons or watches disagree, the time of the intermediate button or watch shall be the time for that timing system.
- (3) If only two button or watch times are available, the time shall be the average of those two button or watch times. The digits representing thousandths of a second shall be dropped with no rounding.
- (4) If only one button or watch time is available, the time of that button or watch shall be the time for that timing system.

.6 Determining Order of Finish —

A. Place and Ranking — The order of finish shall be by integration of official times

B. Ties — official times identical to the hundredths shall be ties

102.17 CLERK OF COURSE — STAGING

.1 The clerk of course shall be provided with an area clearly identified as the staging area where all swimmers must report as soon as their event is called.

.2 The clerk of course shall be provided with a list of the names of all swimmers in all events including relay swimmers in the order in which they will swim.

102.19 RECORDERS/SCORERS — In a scored meet, shall confirm the order of finish in dual meets and championship meets for each event. They shall compile team and high-point scores as applicable. The Recorder may also serve as the Scorer.
